PROJECT EXPERIENCE

AI Virtual Interview System

Description: An AI-powered mock interview platform that lets candidates practice interviews and get their answers evaluated, so they can see how ready they are and where to improve.

- Built the evaluation flow that evaluates candidate responses and generates personalized feedback.
- Assessed interview readiness, communication and response quality for each candidate.
- Identified performance gaps and turned them into clear feedback candidates can act on to improve.

HealthLens AI – Health Risk Assessment System

Description: An AI-based health risk assessment system that analyzes uploaded medical reports, PDFs, images and documents, and classifies the overall risk into Normal, Medium and High-Risk levels.

- Developed the report analysis workflow that accepts PDF, image and document uploads.
- Classified each report into Normal, Medium or High-Risk levels so results are easy to understand at a glance.
